DETAILED ACTION

1. This application has been examined. Claims 12-26 have been cancelled.
2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-11 are rejected under 35 U.S.C. 102(e) as being anticipated by Schein et al (2002/0129366).
4. Regarding claim 1, Schein et al show an interactive program guide which displays at a first and second magnification level a first and second number of selection items from televised programming categories (Figures 1, 7, 20, para 10).
5. Regarding claim 2, the second magnification is higher and the second number of items is greater (one is higher with more items, see again Figures 1, 7, 20, para 17, 118).

6. Regarding claim 3, following above, the second level is higher and the first number is thus a subset of the second number (the zoomed portions then are backed by the remaining items).
7. Regarding claim 4, television program categories are selected (para 128, Figure 19).
8. Regarding claims 5-6, the category is a genre, and the number of items refers to providers (stations) and programs (Figure 7 for ex.)
9. Regarding claim 7, in addition to that mentioned for claim 1, note the magnification creates a hierarchy (para 117-118).
10. Regarding claim 8, the nonzoomed subset is not active (Figures 1, 7, 20, para 109).
11. Regarding claim 9, the inactive items are rendered in a distinguishable way (Figures 1, 7, 20).
12. Regarding claim 10, the second subset includes the first sunset (para 17).
13. Regarding claim 11, the prioritization metric determines the subsets (para 80-81).

14. Claims 27-30 are allowable over the prior art of record. These bring out further zooming and scaling and visual movement impression features which combined in the claims are not set forth in the prior art of record.

15. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven P. Sax whose telephone number is (571) 272-4072. The examiner can normally be reached on Monday thru Friday, 8:30 AM - 5:00 PM.
